#PuppetMaster

How Breadcrumbs From Spamouflage-Linked Assets Led Us to an Accounts-for-Sale Service

Overview

In investigating the Chinese influence operation Spamouflage, we identified an entity generating inauthentic Facebook accounts used in a set of Spamouflage activity, primarily using the name Salva Store. They operate YouTube and Telegram channels to promote the sale of Facebook accounts and social media services, primarily on Meta platforms. Based on open-source indicators, we assess with high confidence that this intermediary is located in Bangladesh.

Key Findings

- We identified 47 YouTube channels, seven Facebook accounts, seven Instagram accounts, three X accounts, two Tumblr accounts, and two Bluesky accounts linked to the Chinese influence operation [Spamouflage](#) and posting a video, “VENOM: The Blackmail Symbiote.” The video suggests the U.S. president started the Iran war to shift public attention away from the release of government files on late sex trafficker Jeffrey Epstein.
- The video was originally posted by an AI-generated Instagram video creator account, Forbidden Clothes, and later by a Chinese military blogger’s Weibo account. Watermarks from both accounts are visible on versions of the video.
- Another set of 15 Facebook Spamouflage-linked accounts commented on Facebook posts from the previous set, bringing the total number of Spamouflage-linked Facebook accounts to 23. Three of those commenting accounts featured images with a “Salva Store” logo and a link to the Telegram channel Salva James.
- That Telegram channel is linked to five others, as well as two Facebook pages, two web domains, and one YouTube channel, all collaborating to promote the sale of Facebook and other social media accounts. The web domains advertise Facebook and Instagram accounts, Meta ads, and Business Manager accounts, in addition to creating fake Gmail and Hotmail email addresses.

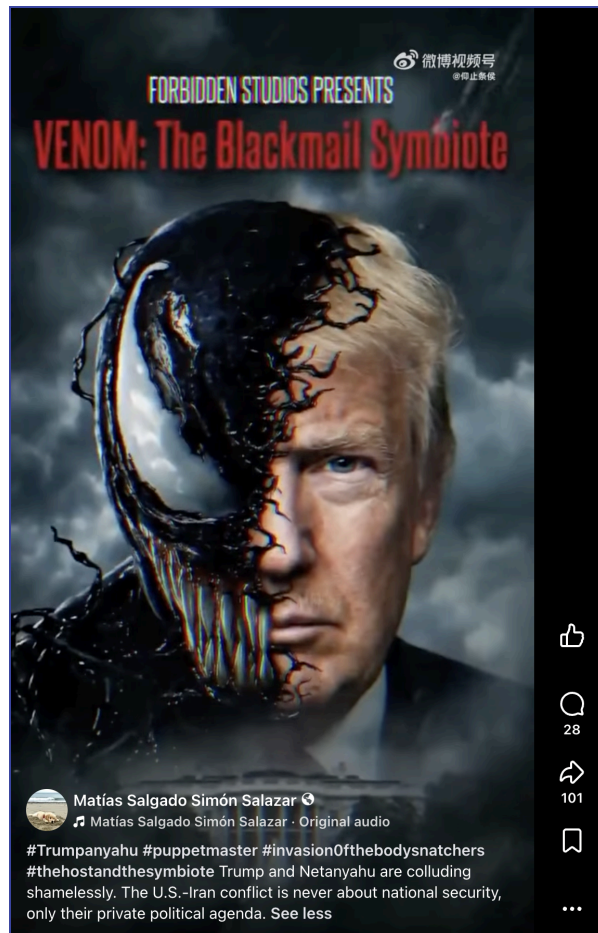

- Based on open-source indicators, we assess with high confidence that this activity is based in Bangladesh.
-

Analysis

In monitoring Spamouflage activity, we identified 68 likely inauthentic, Spamouflage-linked accounts and channels sharing an AI-generated video between April 14 and 15, 2026:

- 47 likely inauthentic YouTube channels
- 7 Facebook accounts
- 7 Instagram accounts
- 3 X accounts
- 2 Tumblr accounts
- 2 Bluesky accounts

“VENOM: The Blackmail Symbiote” portrays U.S. President Donald Trump as possessed by the Marvel character Venom, an alien symbiote that takes the form of Jeffrey Epstein in the video.

Facebook post by a Spamouflage-linked account [sharing](#) the video and alleging, "The US-Iran conflict is never about national security, only their private political agenda."

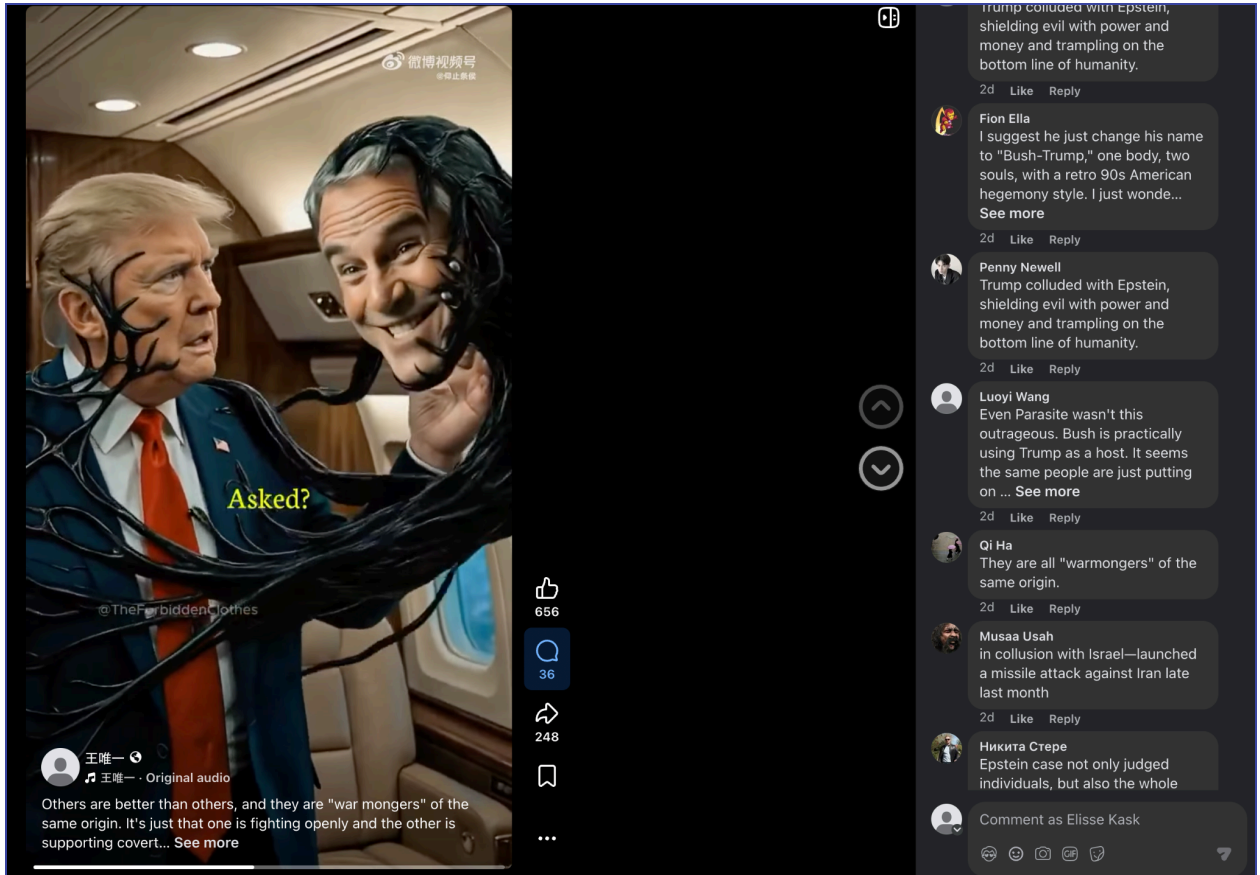

The Epstein symbiote is seen influencing Trump to conduct wars and taking control of him in conversation with Israeli Prime Minister Benjamin Netanyahu, suggesting Trump began the Iran war to shift public attention away from the Epstein files. Posts sharing the video used four hashtags: #Trumpanyahu, #PuppetMaster, #InvasionOfTheBodySnatchers, and #TheHostAndTheSymbiote.

According to a watermark on the video, an Instagram AI-generated video creator account [called](#) Forbidden Clothes posted the video on Instagram. Chinese [military blogger Weibo](#) account @仰止条侯 then posted the video, adding a Weibo watermark. The posting accounts sourced the video either from the Weibo account (showing both watermarks) or directly from the original seeder, Forbidden Clothes.

Screenshot of the video with the two watermarks visible in the upper right corner.

Across platforms, the posts received almost no engagement except on Facebook, where the video attracted likes and comments from an additional set of 15 likely inauthentic accounts.

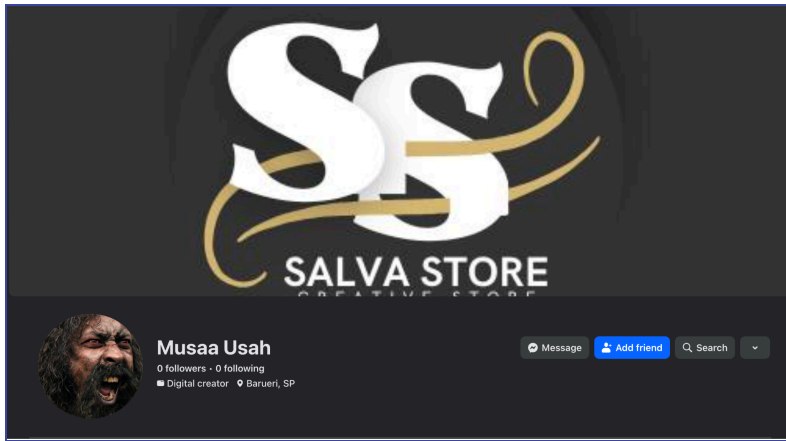

A Facebook [post](#) of the video by a Spamuflage-linked account, which garnered multiple comments from other Spamuflage-linked accounts.

We attributed all these accounts and channels across all six platforms – including the commenting accounts on Facebook – to Spamuflage with high confidence, based on:

- Shared use of the video and hashtags
- Posting the video on Facebook or Bluesky with a link to a link to one of the 47 identified YouTube channels
- Previous participation, by some of the accounts/channels, in other Spamuflage-linked campaigns targeting the U.S. or the Philippines

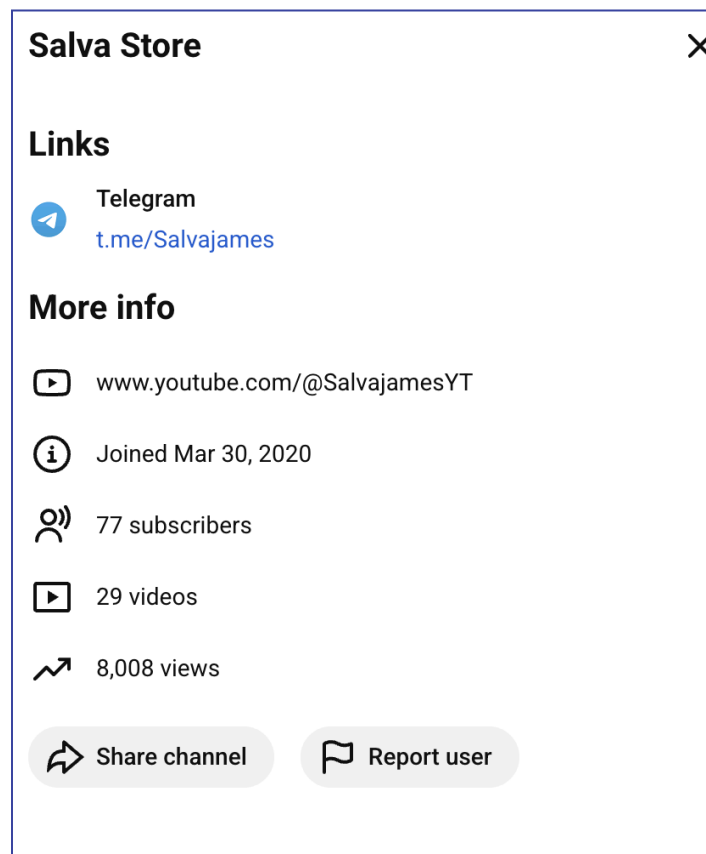

Three of the 23 Spamuflage-linked Facebook accounts displayed a cover picture featuring a “Salva Store” logo and the Telegram handle @salvajames.

A Spamuflage-linked account that [commented](#) on the video (left); the image features a "Salva Store" logo and Telegram handle (right).

Salva Store YouTube Channel

A search for @salvajames revealed a YouTube channel [called](#) Salva Store, which included a link to the Telegram channel @salvajames in its description.

The YouTube channel Salva Store's description.

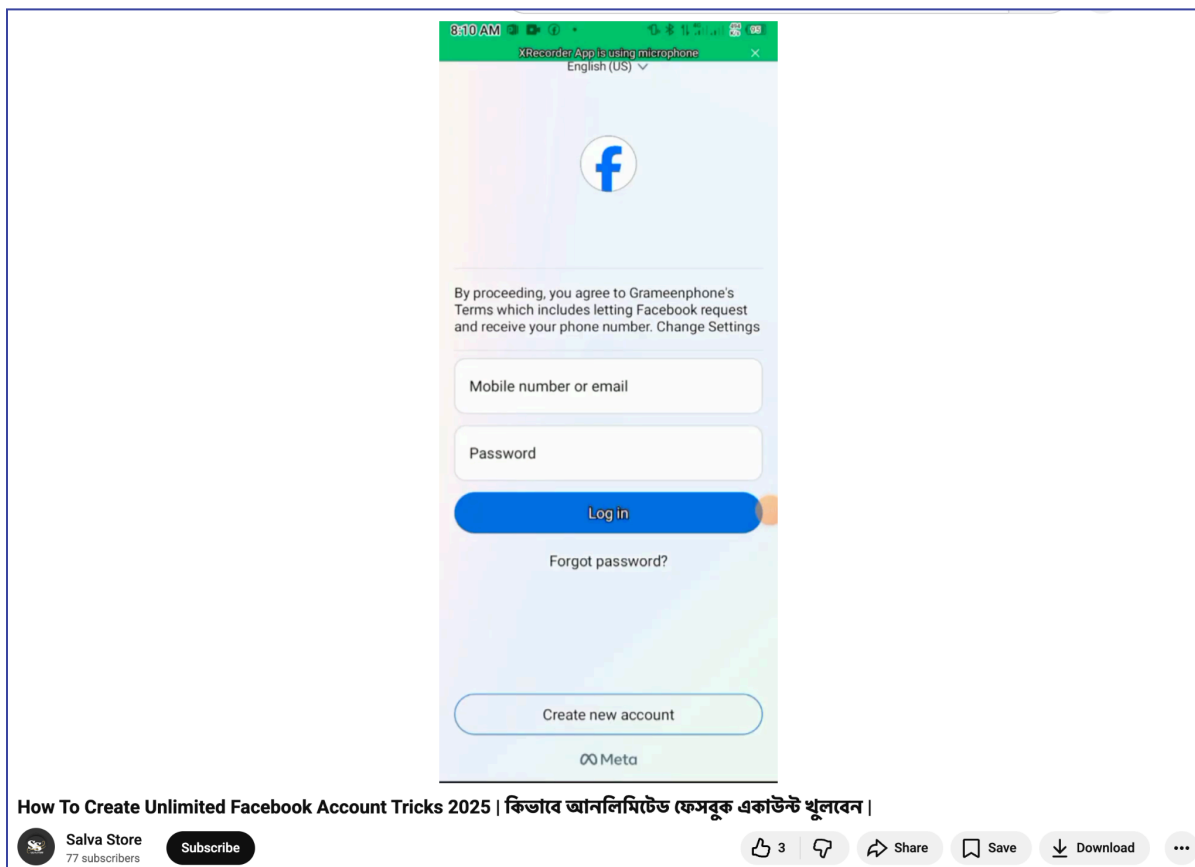

The YouTube channel's videos promote services to buy fake Facebook accounts and Meta Business Manager 5 (BM5) accounts, as well as to "recover" restricted accounts.

The image displays a grid of 12 YouTube video thumbnails and titles, arranged in three rows and four columns. Each thumbnail features a different service being promoted, often with a person's face or a screenshot of a Facebook interface. The titles and view counts are as follows:

- Row 1:**
 - Thumbnail 1:** "BUY AGED FB ACCOUNTS" with features like "6 MONTHS+ OLD PROFILE", "2FA ACTIVATED", and "WITH COOKIES". Title: "How to Get a Trusted Facebook Account | FB ID Buying Tips | Trusted & Safe FB ID |...". Views: 19 views • 2 days ago.
 - Thumbnail 2:** "BUY FACEBOOK ACCOUNTS" with features like "100% SECURE", "2FA ACTIVE", "OLD & NEW IDS", "QUICK DELIVERY", and "PREMIUM STOCK". Title: "How to buy Facebook Account | Buy Premium Facebook Accounts in 2026 | 100...". Views: 41 views • 5 days ago.
 - Thumbnail 3:** "HOW TO BUY FACEBOOK ACCOUNT" with "1000+ FRIENDS READY!". Title: "How to buy Facebook Account | Best Website to Buy Facebook Account (Old &...". Views: 76 views • 11 days ago.
 - Thumbnail 4:** "BUY FB ACCOUNTS CHEAP + SAFE". Title: "How to buy Facebook Account | Best Website to Buy Facebook Accounts (Old &...". Views: 332 views • 1 month ago.
- Row 2:**
 - Thumbnail 5:** "How to Check Facebook Primary Location Step By Step". Title: "How to Chek Facebook Primary Location Step By Step | How To Check Primary...". Views: 56 views • 3 months ago.
 - Thumbnail 6:** "BUY USA FACEBOOK ACCOUNT" with "INSTANT DELIVERY". Title: "How to buy USA Facebook Account | FB ID Sell | Trusted FB Seller | Salvajames". Views: 638 views • 3 months ago.
 - Thumbnail 7:** "Primary Location USA" with features like "+3Month Old", "2fa On", "Hotmail Add", and "Trusted Seller". Title: "Buy USA Facebook PVA accounts | Bulk USA Facebook accounts for sale | USA Faceboo...". Views: 50 views • 3 months ago.
 - Thumbnail 8:** "SPENDING LIMIT BDT30622.5". Title: "How to Check Facebook Ads Account Spending Limit (Step by Step Guide) | Salva...". Views: 22 views • 4 months ago.
- Row 3:**
 - Thumbnail 9:** Screenshot of a Facebook Business Manager interface. Title: "Facebook BM 3 Sell | Old & Spent Strong \$250 Limit BM | Strong Ads Account For...". Views: 281 views • 5 months ago.
 - Thumbnail 10:** "INSTANT FACEBOOK BM RESTRICTED BACK METHOD". Title: "How To Get Back Restricted Facebook BM | Recover Disabled Business Manager Instan...". Views: 362 views • 6 months ago.

 - Thumbnail 12:** Screenshot of a Facebook interface. Title: "Facebook auto pay method 2025 | Facebook thrashold method | Facebook ads campain...". Views: 169 views • 8 months ago.

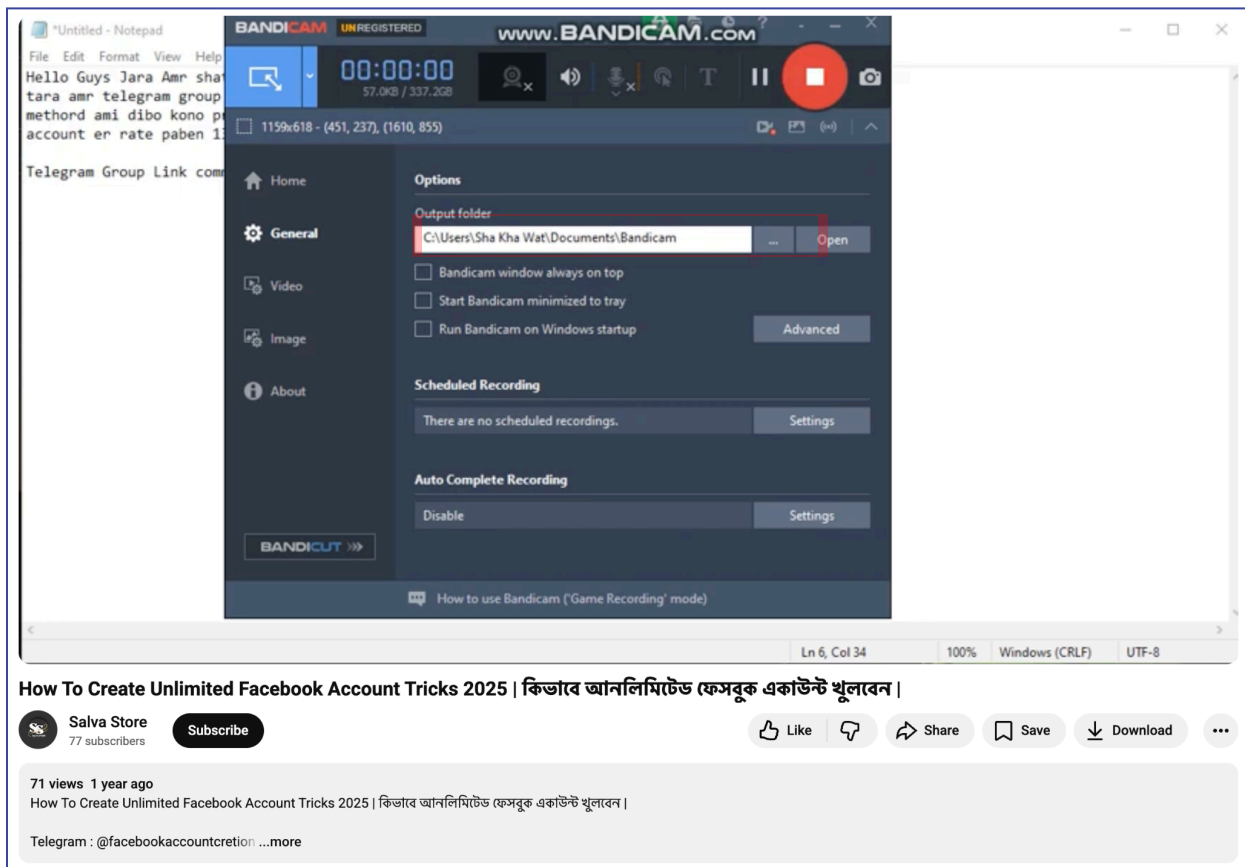

Some of the Salva Store YouTube channel's videos, promoting various services. The channel gradually began using AI-generated thumbnails featuring fake individuals, likely to increase viewership.

The channel initially posted videos with titles in English and Bengali. Some videos did not feature audio or featured an AI-generated voiceover, although one of the first posted videos featured a likely authentic Bengali voice.

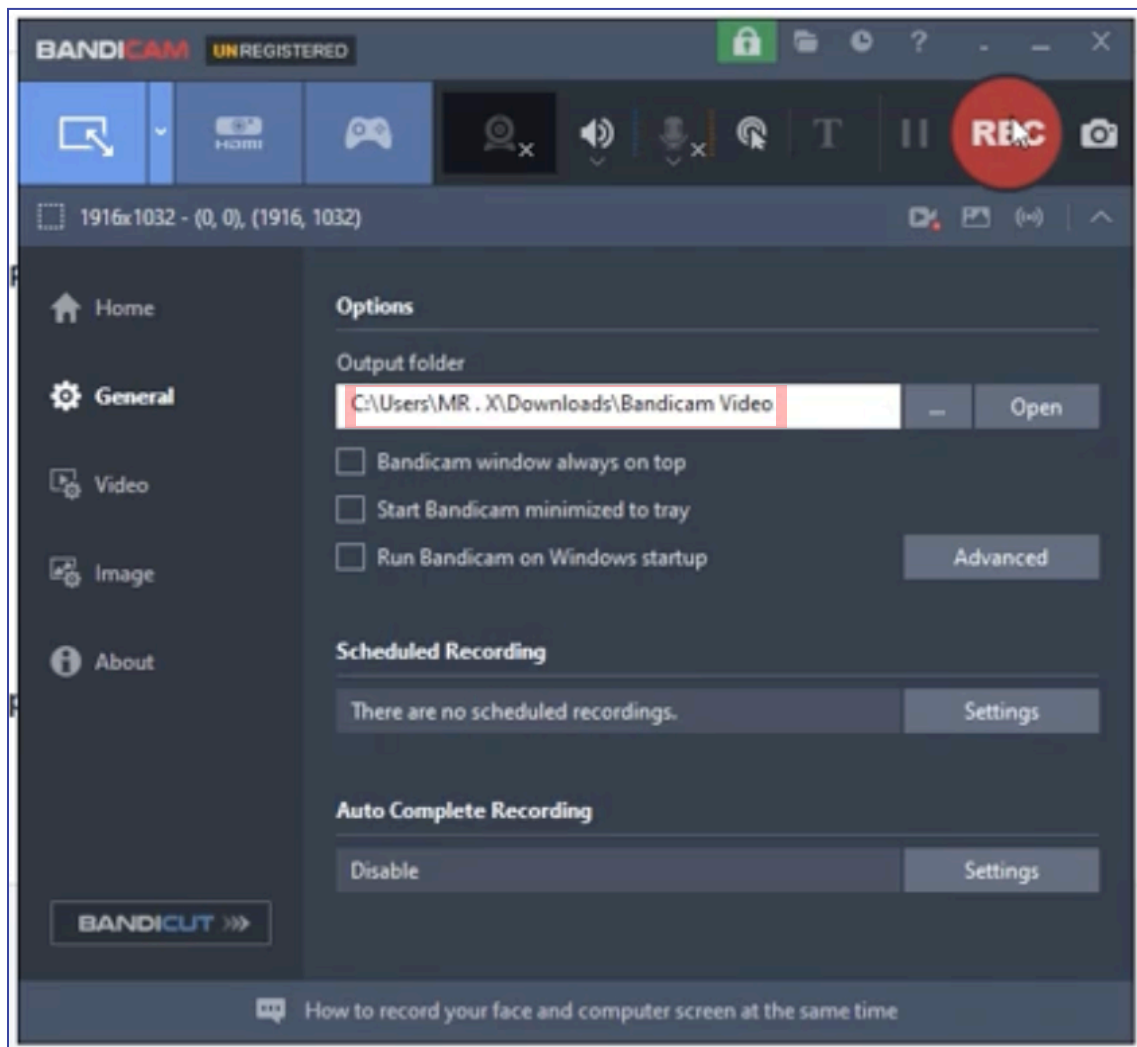

Screenshot of one of the first posted videos on the Salva Store channel, [featuring](#) a title in English and Bengali and an authentic Bengali voice (likely the creator's).

Several videos showed the video creator's screen, recorded using the software Bandicam. On the screen, the output folder is visible with the file path C:\Users\Sha Kha Wat\Documents, suggesting the video creator's name may be Sha Kha Wat, which is a plausible Bengali name.

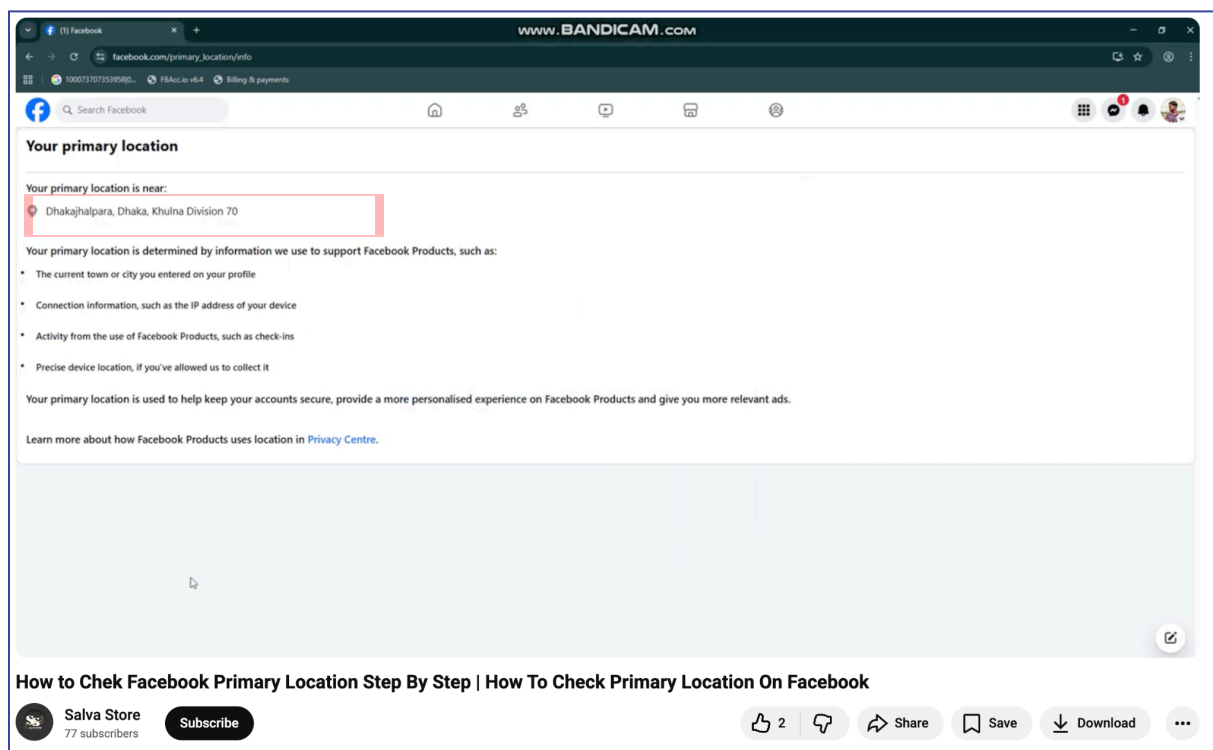

Screenshot of a [video](#) from the Salva Store YouTube channel showing the video creator's screen, recorded using Bandicam, as the operator opens a folder via the file path C:\Users\Sha Kha Wat\Documents.

More recent YouTube videos on the channel show that the “user” name changed to “MR . X.”

Screenshot of a video from Salva Store YouTube channel showing a new file path featuring the name “MR . X.”

One video features the user demonstrating how to find the primary location of a Facebook account. The Facebook account used to make the demo showed the location Dhakajhalpara, Dhaka, Bangladesh.

Screenshot of a video from the Salva Store YouTube channel [showing](#) that the primary location of a Facebook account being used for a demonstration is Dhakajhalpara, Dhaka, Bangladesh.

Telegram Channels Associated With Salva Store

The Salva Store YouTube channel's videos feature descriptions that contain links to two Telegram channels, @facebookaccountcretion and @SalvastoreYT, and two web domains, fbvault[.]com and bebstock[.]com, that offer services promoted in the YouTube videos.

The description of a [video](#) from the Salva Store YouTube channel, which shows references to two domains, [fbvault\[.\]com](https://fbvault.com/) and [bebstock\[.\]com](https://bebstock.com), and the Telegram channel @SalvastoreYT.

The Telegram channel Facebook Account Creation (@Facebookaccountcretion) [had](#) the same logo as Salva Store, but apparently stopped being active in September 2025. The Telegram channel Salva Store (@SalvastoreYT) indicates in its description that its administrator [account](#) is Salva James (@salvajames); those appear to be the only two currently active Telegram assets associated with the YouTube channel.

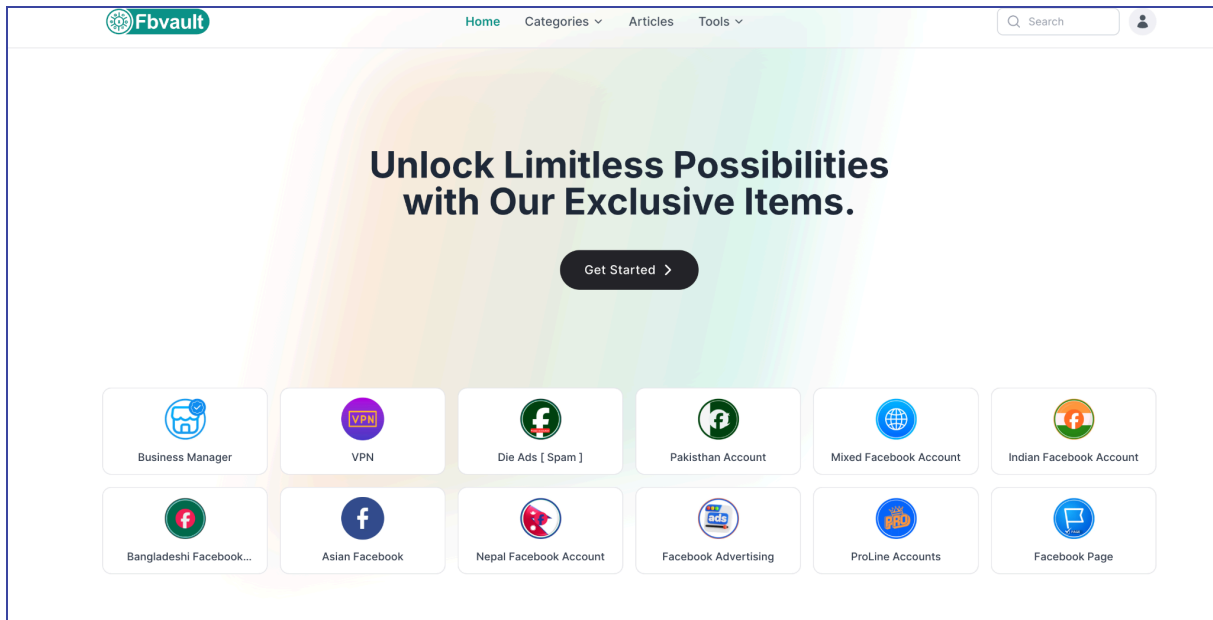

Screenshot of the Telegram channel @SalvaStoreYT [showing](#) its activity in April 2026. The channel's administrator is @salvajames.

According to the tool Telelog, @Salvajames is mentioned in 108 Telegram channels that primarily discuss “meta marketing,” including buying and selling Facebook accounts and groups and Meta ads.

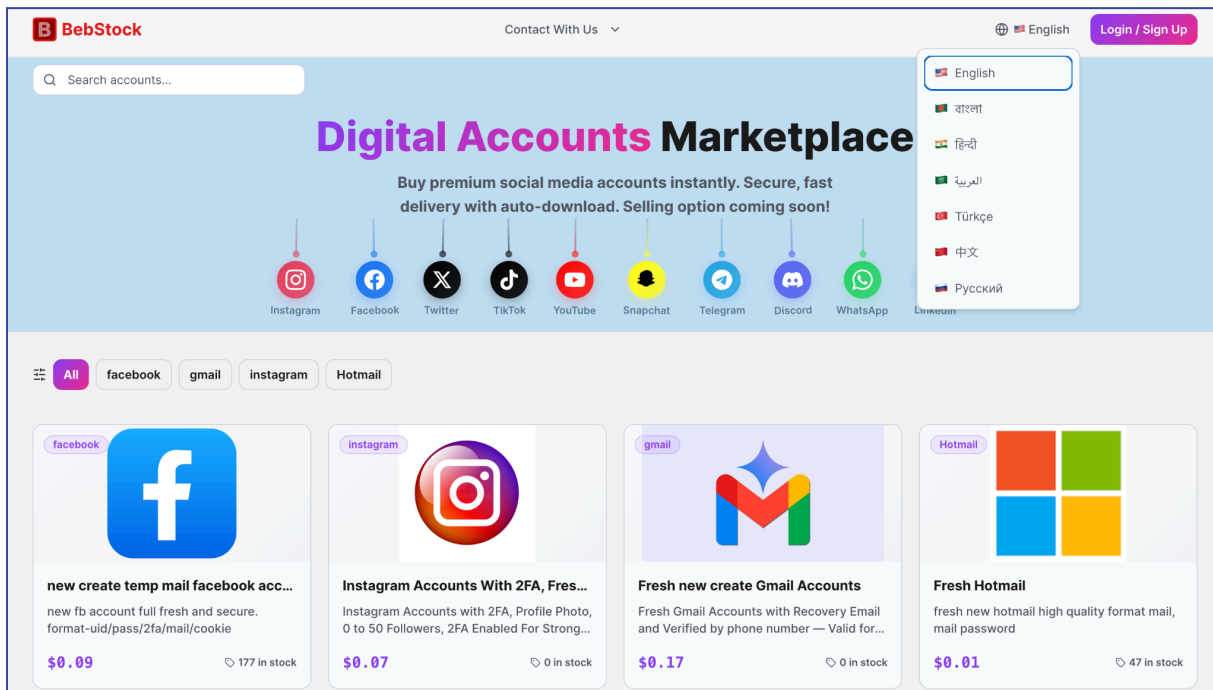

Domains Associated With Salva Store

The domains fbvault.l.com, created in 2023, and bebstock.l.com, created in March 2026, both feature offers to buy Facebook accounts, ads, and Business Manager accounts. Both also appear to have special categories for Asian accounts, including for Bangladesh, Pakistan, India, and Nepal.

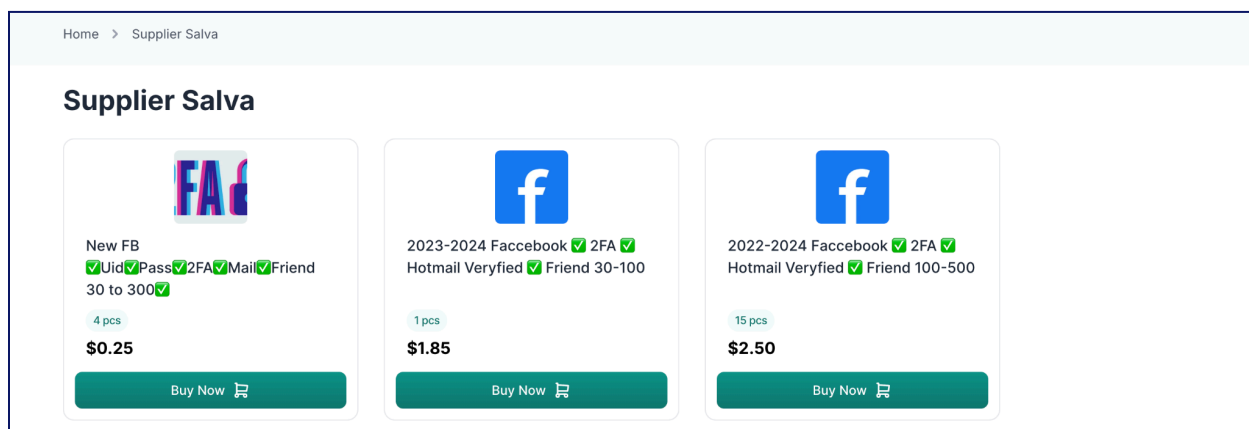

Home page of fbvault[.]com, which offers Pakistani, Bangladeshi, Indian, Nepali, and "Asian" Facebook accounts, as well as a "Mixed Facebook Account." There are also offers for Facebook pages, Business Manager accounts, Facebook Advertising, ProLine accounts, and VPN.

Bebstock[.]com is available in multiple languages, including Bengali, Indian, Arabic, Chinese, Russian, French, Portuguese, Spanish, and German, likely based on the primary locations of its clients.

Screenshot of Bebstock[.]com's homepage. The website is available in multiple languages and features offers for Facebook, Instagram, Gmail, and Hotmail accounts.

Fbvault[.]com has a category called Salva Supplier, likely referring to the Salva Store “brand.”

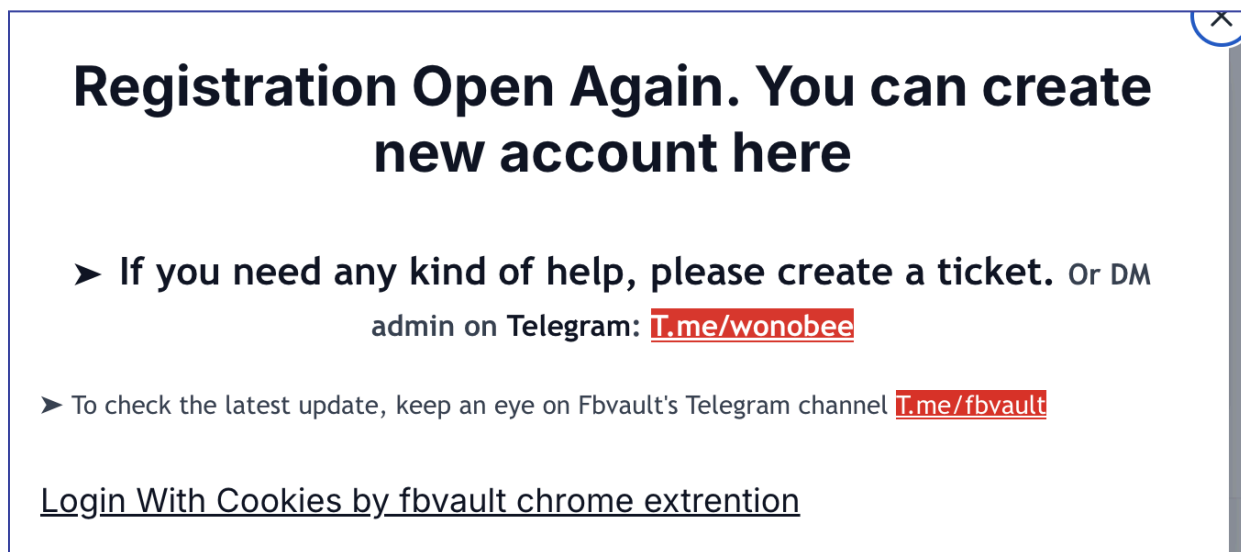

The screenshot shows the 'Supplier Salva' category on the fbvault[.]com website. It features three product listings for Facebook accounts, each with a 'Buy Now' button and a shopping cart icon.

Product Description	Price
New FB ✔Uid✔Pass✔2FA✔Mail✔Friend 30 to 300✔ 4 pcs	\$0.25
2023-2024 Facebook ✔2FA✔ Hotmail Verified✔ Friend 30-100	\$1.85
2022-2024 Facebook ✔2FA✔ Hotmail Verified✔ Friend 100-500	\$2.50

The Supplier Salva category of fbvault[.]com, offering accounts created between 2022 and 2024 and new Facebook accounts. The prices indicate it's cheaper to purchase new Facebook accounts (\$0.25 per four “pieces”) than accounts likely hijacked between 2023 and 2024 (\$1.85 per “piece”) or 2022 to 2024 (\$2.50 per 15 “pieces”).

Additional Facebook and Telegram Assets Associated With the Domains

Bebstock[.]com's “Contact With Us” page mentions another Telegram channel, @Santo_Bn, and fbvault[.]com mentions two others, @wonobee and @fbvault.

The screenshot shows a Telegram announcement banner with a close button in the top right corner. The text reads:

Registration Open Again. You can create new account here

- ▶ If you need any kind of help, please create a ticket. Or DM admin on Telegram: [T.me/wonobee](https://t.me/wonobee)
- ▶ To check the latest update, keep an eye on Fbvault's Telegram channel [T.me/fbvault](https://t.me/fbvault)

[Login With Cookies by fbvault chrome extention](#)

An announcement that appears upon opening fbvault[.]com's home page, mentioning Telegram channels @wonobee and @fbvault.

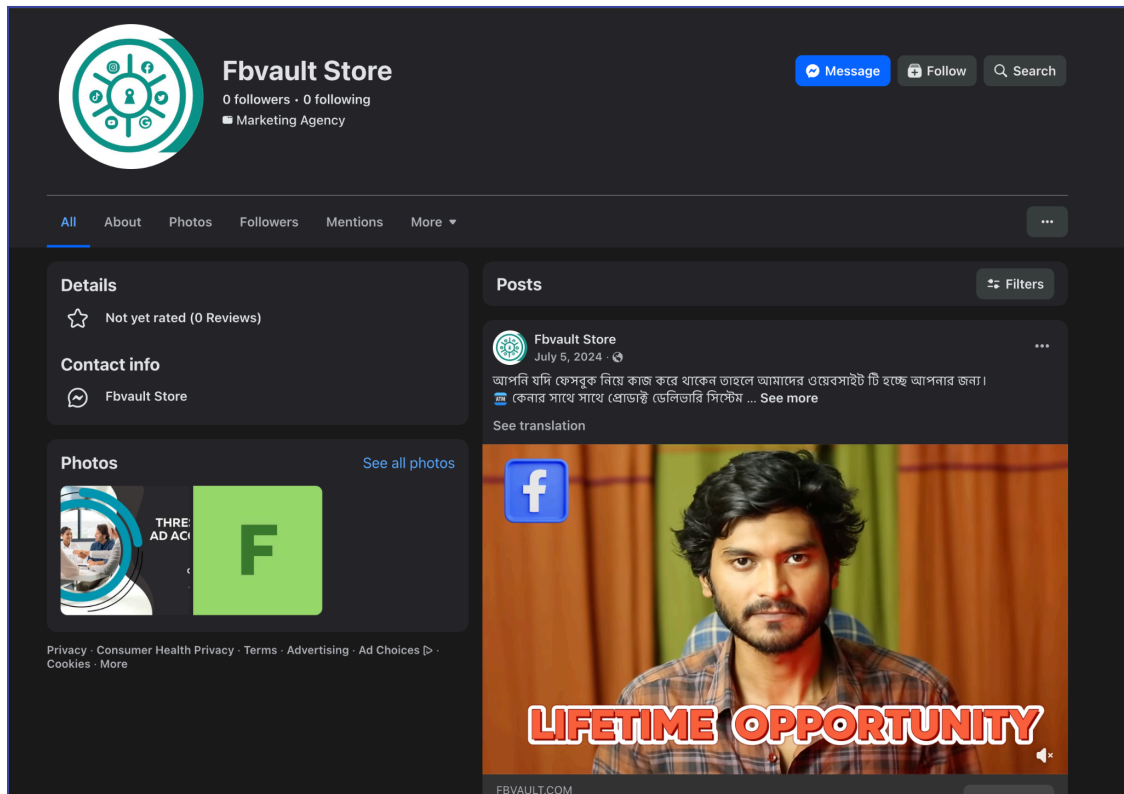

According to Telelog, @wonobee is a bot related to a Telegram channel called Facebook Ads & account. Neither @wonobee nor @fbvault can be “displayed” on Telegram because they allegedly violate the platform's terms of service.

Fbvault[.]com features a link to a currently active Facebook page, Phone Farming Bangladesh.

Screenshot of the active [Facebook](#) page Phone Farming Bangladesh, which is linked on fbvault[.]com.

We also found an inactive Facebook page, Fbvault Store, using the same logo as fbvault[.]com; it was likely the online presence of the enterprise before the domain fbvault[.]com came into use.

Screenshot of the [Facebook](#) page Fbvault Store, which was last active in 2024 and now directs to fbvault[.]com.

The Facebook page Fbvault Store features a video with an Asian man speaking Bengali, promoting the services of Fbvault Store.

Screenshot of the video promoting the services of Fbvault Store in Bengali.

Based on these findings, we assess with high confidence that Salva Store is very likely a Facebook accounts supplier working in collaboration with other entities/individuals – as summarized in the table below – on various platforms, offering the same services.

Entity	Telegram Handle	Facebook URL	YouTube Handle
Salva Store	Salvajames		SalvajamesYT
	SalvastoreYT		
	facebookaccountcretion		
Bebstock	Santo_Bn		
FBvault	wonobee		
	fbvault	https://www.facebook.com/profile.php?id=61561565643494	https://www.facebook.com/profile.php?id=61568893963359

Estimative Language Legend

Assessments of Likelihood

Graphika uses the following vocabulary to indicate the likelihood of a hypothesis proving correct. If we are unable to assess likelihood due to limited or non-existent information, we may use terms such as “suggest.”

Almost No Chance	Very Unlikely	Unlikely	Real Chance	Likely	Very Likely	Almost Certain(ly)
1-5%	5-20%	20-45%	45-55%	55-80%	80-95%	95-99%

Confidence Levels: Indicators of Sourcing and Corroboration

Graphika uses confidence levels to indicate the quality of information, sources, and corroboration underpinning our assessments.

Low Confidence	Medium Confidence	High Confidence
Assessment based on information from a non-trusted source and/or information we have not been able to independently corroborate.	Assessment based on information that we are unable to sufficiently corroborate and/or information open to multiple interpretations.	Assessment based on information from multiple trusted sources that we are able to fully corroborate.

About Us

Graphika is the most trusted provider of actionable open-source intelligence to help organizations stay ahead of emerging online events and make decisions on how to navigate them. Led by prominent innovators and technologists in the field of online discourse analysis, Graphika supports global enterprises and public sector customers across trust & safety, cyber threat intelligence, and strategic communications spanning industries including intelligence, technology, media and entertainment, and global banking. Graphika continually integrates new and emerging technologies into our proprietary intelligence platform and analytic services, empowering our customers with high-precision intelligence and confidence to operate in a complex and continuously evolving information environment.
